Every two minutes a woman is diagnosed with breast cancer. This year 290,170 women in our country will be diagnosed with breast cancer. This year 39,510 women in the United States will die of breast cancer. You may be asking what does National Breast Cancer Awareness Month have to do with taxes? They both touch our lives. Breast cancer has profoundly affected our family. Frankly, solving tax problems usually has a clear path that can be followed to be successful, especially when following the advice of a tax professional. However, at this time there is not a sure way to prevent breast cancer. That does not mean that awareness isn't important to survival. There are 2,900,000 breast cancer survivors in the United States.

We don't want you losing a loved one from this disease. We keep hoping there will be a cure found for this terrible disease. This is why **regular mammograms are important for early detection.** Unfortunately, though there have been numerous studies examining the association of dietary components (including fat, soy, dairy, meat, fruits and vegetables) with breast cancer risk, no clear link has been found for any of these and breast cancer. The effect of diet continues to be an active area of research. Factors that are associated with increased breast cancer risk include: post menopausal obesity, use of combined estrogen and progesterin menopausal hormones, alcohol consumption, and physical inactivity. Those are things that can be modified to increase the odds for better health.

The Indianapolis Colts turned the downtown canal pink for the third year in a row in honor of National Breast Cancer Awareness Month. The Indianapolis Pyramids went pink for Breast Cancer Awareness Month. "Women of a Certain Age: On

Fire" at the Stutz Artist Studio brings together nine women whose 2D and 3D metal work, jewelry, paintings and other media explore the theme of fire with the proceeds from the sale of their works benefiting breast cancer awareness.

Yes, we too have gone pink this month. Join us in supporting organizations that are supporting finding a cure for breast cancer. Ones you may wish to consider supporting include the American Cancer Society, Susan G. Komen for the Cure and don't forget to daily click for www.TheBreastCancerSite.com (make it your homepage setting and remember to click it.) to help fund free mammograms. Do it for your Mom, your sister, your wife and for yourself. **You too can play an important role in this fight.**

Be A Superhero!

At Ebbinghouse Law Group we are in the business of making you a superhero to the people you refer to us. Your reputation and relationship is enhanced using us as a trusted resource to solve their tax problem.

Thank You For Your Referrals!

We appreciate your referrals. As you know, we represent people in tax audits, payment plans, offers in compromise, innocent spouse and many other IRS problems. It really makes our day when you have referred someone to us. It is the ultimate compliment. We highly value your trust and will take care of everyone you send us. You are doing them a favor telling them about our services and us a favor too by sending us quality people we enjoy helping.

This publication is intended to educate the general public about IRS Tax Problem Resolution. It is not intended to be legal advice. Every case is different.

Tom's mother-in-law (Joan Doloris) is a fantastic cook and he wanted to share her recipes with you. Each month we will feature great down home comfort food for you to enjoy.

Doloris's Divine Dishes

OLD FASHIONED PIE CRUSTS PART THREE

Lard Pie Crust

8 oz lard (room temp)
3 cups flour
Pinch of salt
6 oz ice cold water

This will give you one double crust pie and three single crust pies.

1. Work lard with a pastry cutter or by hand into flour, to the size of small peas. Pour a third of the ice cold water into the flour mixture working the water and dough together by hand. Adding a third of the ice cold water to dough until it comes together into a ball. The dough should pull away from the sides of the bowl.
2. Wrap in plastic wrap and refrigerate for one hour.
3. Roll the dough into a circle on a counter surface, place dough into pie dish.
4. Poke holes into the pie crust so it won't bubble over.
5. If you are not using pudding put your filling in and bake at 450 degrees for 10 minutes then reduce the heat to 350 degrees for 40 minutes.
6. Put your crust topping on and bake for 15 minutes at 350 degrees.
